Detailed Action

1. Applicant's election without traverse of claims 12-15 (Group II) in Paper No. 7 is acknowledged.

Cancellation of all non-elected claims is requested to enhance prosecution.

2. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 12-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 12-15 are incomplete because some process/method step(s) are missing, such omission amounting to a gap between the steps. See MPEP 2173.05(1). A claim is indefinite when it merely recites some process/method steps without all active/positive steps defining how this process/method is actually practiced.
